

# Digital Particulate & Temperature Sensor

Monitor air quality and temperature for a healthy and safe work environment.

RMA-DTP-SEN

## We've got facilities covered.

The Digital Particulate & Temperature Sensor monitors both airborne particulate matter in the air and temperature, addressing a broad spectrum of safety applications. It protects occupant health by detecting wildfire smoke, industrial pollutants, and other harmful particulates. This sensor is an ideal solution for organizations looking to improve indoor air quality for staff protection.
